Date: 24. März 2020

Dear customers,

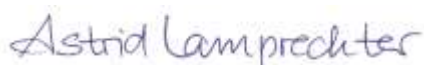

Unfortunately, the rapid spread of the corona virus dictates that we take appropriate protective measures and precautions.

Since 23 March 2020, short-time working arrangements are in place for some of our staff. But there is also good news – we are still here for you! A downsized number of staff is working on our premises and the customer support team is assisting you remote to accept to and execute your orders. Production is being continued at all three of our locations.

To ensure that everything continues to run smoothly, there is a higher and intensive need for coordination. You can get in touch with your contacts at GWS at any time by phone or e-mail.

We hope that this exceptional situation will return to normal soon and wish you and your staff all the best!

Sincerely,

Mag.^a Astrid Lamprechter, MBA
Management
